ALL KERALA COMMUNICATIONS SOCIETY STUDENT CONCLAVE 2024

20 & 21 DECEMBER
2024

ABOUT IEEE COMSOC

The **IEEE Communications Society (ComSoc)** is a leading global community dedicated to advancing communications and networking technology. With a focus on fostering research, innovation, and collaboration, IEEE ComSoc **Connects Engineers, Researchers, and Industry Professionals** across various fields of communication.

IEEE ComSoc enables its members to stay at the forefront of technological advancements in areas such as **Wireless Communications, Networking, Internet of Things (IoT), and Data Science**. As a part of IEEE, ComSoc provides a platform for exchanging ideas, and contributing to the evolution of communication technologies that impact industries and improve connectivity worldwide.

OUR HOST

Mar Athanasius College of Engineering, Kothamangalam is one among the three gov-aided colleges, with a campus that extends for more than a mile alongside the foothills of the evergreen Western Ghats. MACE offers world class education in engineering and technology. The well-equipped hardware labs provide hands-on experience for technical projects. With strong emphasis on innovation, research, and industry collaboration, MACE empowers students to become future leaders. Strong emphasis on innovation, problem-solving, and practical application has made it a preferred choice for aspiring engineering worldwide.

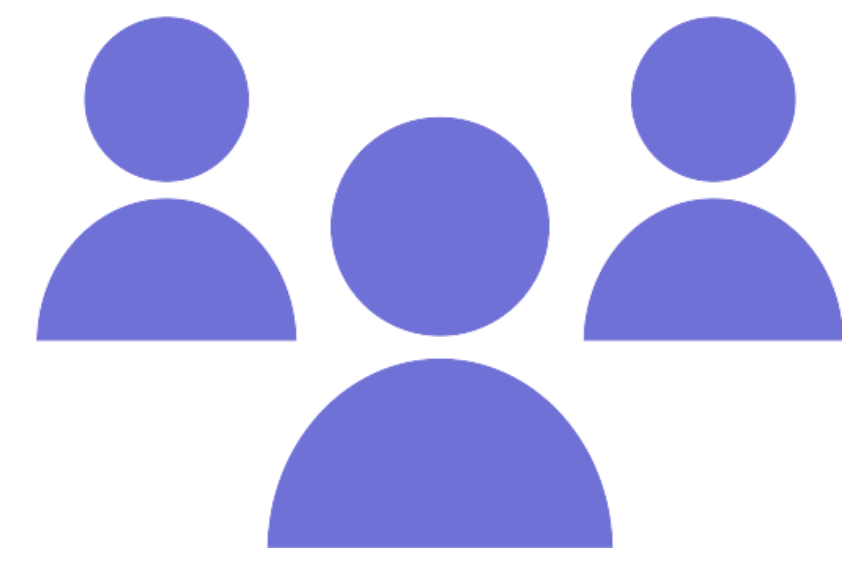

IEEE MACE SB is pleased to host **AKComSocSC'24** this year. With a dynamic community of over 500 active members, we have clinched three consecutive IEEE Regional Exemplary Student Branch Awards, the India Council's Best Student Branch Award 2023, the IEEE RAS Chapter of the Year Award 2023, and the prestigious Darrel Chong Student Activity Award (Gold). We look forward to collaborating with you!

EVENT OVERVIEW

AKComSocSC is the **premier technical flagship event** organized by the **IEEE Communication Society Kerala Chapter**. More than just a technical gathering, it's an immersive experience where **Innovation meets Creativity**. This year, hosted by **Mar Athanasius College of Engineering**, AKComSocSC offers participants the chance to network with industry leaders, explore cutting-edge technologies, and unlock new levels of creative potential.

Beyond the **Tech Talks** and engaging **Panel Discussions** led by experts, AKComSoc also brings a spark of fun and cultural flavor. With vibrant **Cultural Nights**, and **Interactive Sessions**, this event goes beyond the traditional boundaries of technical conferences. Join us in celebrating a blend of **Innovation, Creativity** and **Community Spirit**, and be part of an inspiring atmosphere that fosters both technical skills and lifelong connections.

WHY SPONSOR US?

There are multiple tracks planned and curated to suit the interest of different students, giving each participant a personalised experience in interest and professional choice. The industrial experts invited to the Congress get an opportunity to propose and display their products and services since the participation count is expected to come around 200+. This is extremely useful and important for both the delegates as well as the industry experts, giving an opportunity for the participants to experience and learn and the industrialists to present their services.

Congress will include workshops and sessions on the latest technologies for students from different engineering backgrounds taken by experts and professionals from National and International domains in the field. Each session will be handled by speakers from various fields including Entrepreneurship, Technical, Entertainment, Influencers, Authors.

All the attendees will get an exciting delegates kit as a token of our gratitude, which we believe would remind them of the joy and revelations absorbed through the Congress!
